HARRIS

Book of Bargains

Greatest Values on Record

Thirty-one pages — over 1,000 of the greatest bargains we've ever offered — that's the rare buying treat we spread before you in this sensational money saving book.

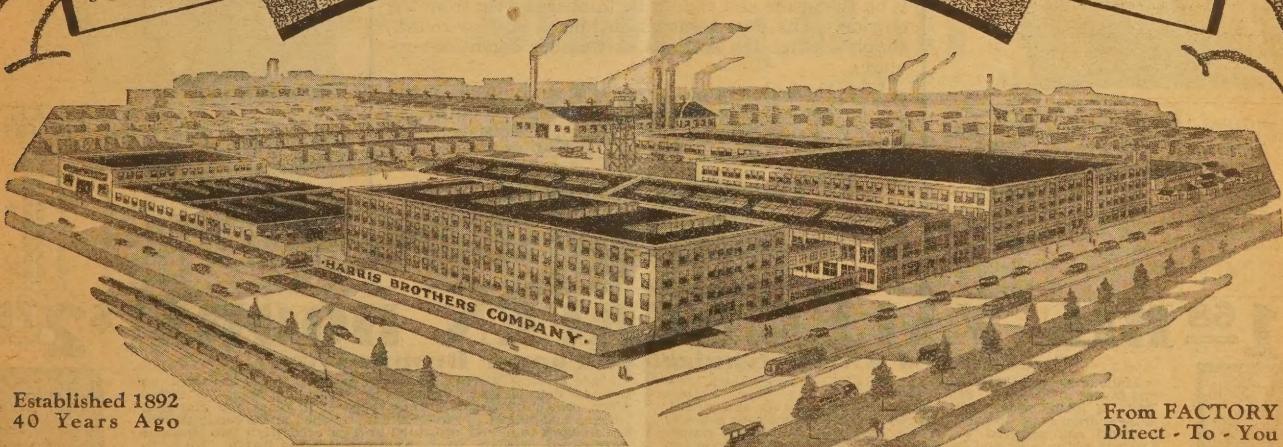

Terms and SHIPMENT

These low prices are for cash buyers. Cash in full must accompany every order, or shipment will be made of orders accompanied by 25% cash, balance to be paid C. O. D., draft to be paid to bill of lading. All prices are F. O. B. cars Chicago. No truck deliveries at these big reduced prices!

DOORS, WINDOWS, SASH, SCREENS, Plumbing, Hardware, Fencing, Paint, General Supplies and articles which you are constantly buying at record breaking low prices. Made possible for you by dealing direct with our big Chicago factories and recent cash purchases which brought vast quantities of these articles to us at stupendous price reductions. Buy liberally now, at "bed rock prices".

Read a Real GUARANTEE

We guarantee that every selection you make will be exactly as represented — of best quality and best manufacture, fresh new merchandise — that every article will be shipped to insure its safe and speedy arrival and that we will return your money if you are dissatisfied in any way.

BEST DOORS MADE AT REAL SAVINGS!

The most practical and convenient combination doors made, for summer and winter use. The removable sections and openings in door are both rabbeted. When sections are in place there is formed a double lap joint which makes them dust and weather-proof.

Hung like any regular door—once hung—always hung. Made of clear white pine, 1 1/8 in. thick. Furnished complete as shown with Glazed Storm section and 14-mesh galvanized or 16-mesh copper bronze Wire Screen sections.

Easy Change Device

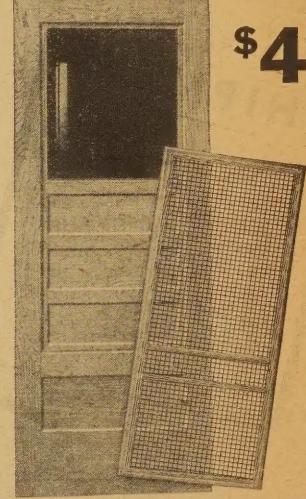

Our improved Patented Locking Device has reduced time required to change sections to a few minutes. Lock is on the inside and cannot be tampered with from the outside. The door remains on hinges all-year-round; simply change the sections as weather conditions require.

When locked, sections are held securely in place and will not rattle and are fly and dust-proof. From an exterior view door appears to be of one-piece construction. No unsightly screws or bolt heads show.

IMPORTANT NOTE:

Harris Combination Doors are the strongest made and you can trim 2 in. off the width and 2 1/2 in. off the height when fitting without greatly impairing their strength.

WINDOW SCREENS

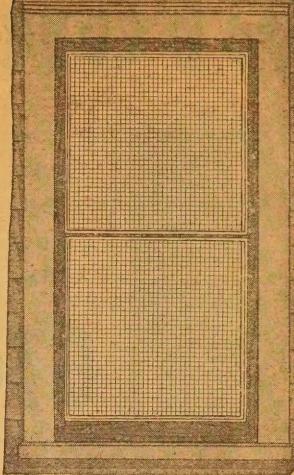

at "Lowest of All Time Prices"

CLEAR WHITE PINE—1½ INCH THICK—FRAMES PAINTED
BLACK—STOCK SIZES—OUR OWN MANUFACTURE

50,000 stock sizes now ready for immediate shipment and all are of finest manufacture—at the lowest prices ever offered! Made in our own screen factory and produced in large quantities—milling the frames under our direct supervision by using automatic tackers, staplers, and stretchers we have improved construction and greatly reduced costs. Instead of loose flimsy frames and sagging baggy wire you now get screens with frames of CLEAR WHITE PINE smoothly finished, strongly joined with screen wire stretched drum tight. Either fine mesh, galvanized or copper bronze wire at the world's lowest prices! All frames 1½-inch thick. Side and top pieces are 2" wide, bottom rail 3" wide overall and have one good coat of black paint. Furnished unpainted at same price if your order so states.

SPECIAL—Remember all our screens are painted one good coat of black paint. This adds 15¢ to 25¢ to their value.

COLUMBIA UNIVERSITY

How to Measure Screens

Always give width first—then height. Give size wanted in feet and inches. Full height window screens fill the outside window frame opening from top to bottom and are flush with outside casing. A variation of about ½ inch from actual size, allowed for fitting.

Special Size Screens

Our stock size full height screens can be cut down 1" in height and 3/4" in width, without impairing the strength of the screen. Special size window screens other than those listed below will be made to order of the same material as stock screens. See paragraph below.

Always Give Width First—Then Height in Feet and Inches

3-0	3-0	1.18
4-0	3-0	1.33
		1.78

Always give Width—then Height. State size in feet and inches.

Sliding Half Screens

Accurately Made—Quick Service

Not Adjustable

Made with frames of clear WHITE PINE: 1 inch stock, finished 3/4 inch net. Tenoned and mortised joints, mitred moulding, drum stretched wire and tacked with patented staples. A real screen.

Furnished Painted Black, but can be had in the natural wood unpainted, if so ordered—same price.

When ordering give WIDTH first. For these half-height Screens, measure the width between blind stops (the 3/4 inch wood strips that hold the upper sash in place) the height measure should be the distance from the sill to the top or bottom sash.

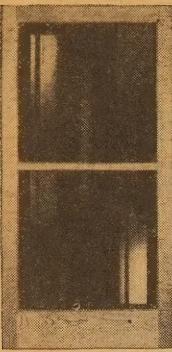

Price includes "slides" or tongue strips which are to be nailed on the blind stops for screen to slide up and down on. Screen lift handle already applied is included.

NOTE—GIVE WIDTH FIRST

HARDWARE TO HANG SASH

AND SCREENS

10-FL-2006. Adjustable Fastener and lock. When open holds sash rigid, prevents rattling; when locked holds sash tight against window frame. Per pair, including screws. 14c

10-FL-2005. Storm Sash and Screen Hanger. Works like a hinge, one on each corner at top. Per pair, including screws. 5c

10-FL-2007. Set of Hangers and Fasteners, including screws. 18c

STORM SASH VENTILATORS

12c

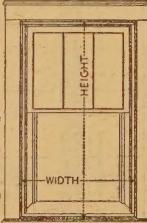

Storm sash can be furnished with ventilators. If you want them, be sure to specify so on your order and add 12c to the price of each sash.

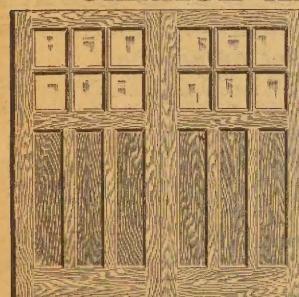

How to Measure Storm Sash

Always Use a RULE, NOT a Tape

Measure frame opening between arrow points as shown in this diagram. Give width first, then height. Sash size in feet and inches. Storm Sash fill the frame opening from top to bottom and are flush with the outside casing or brick mould. A variation of about 1/8 inch from actual size is allowed for fitting.

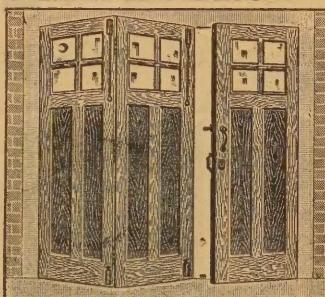

GARAGE AND WAREHOUSE DOORS

Around the Corner Garage Door Set

No. 4-FL-8030. Complete set includes all Rails, Curves, Hangers, Hinges, Butts, Pulls, Latch, Floor Guide, Padlock Eyes, etc. Black Japanned Finish. Each set packed in box with complete instructions. Special price, per set. \$3.95

TRIPLE ATLAS COMBINATION

ASHLAND

Our Garage and Warehouse Doors are made of Clear Kiln Dried Fir. The stiles and rails of the doors are mortised and pinned, which construction gives you a more durable door. The panels are extra heavy, being set into the grooves of the stiles and rails by means of special machinery, making it practically impossible for the panel to warp or check. Water-proof glue is used on all our doors. Glass set with wood stops. Hardware not included.

No. 10-FL-576 ASHLAND DOORS—1 1/4 INCH THICK

Porch and Screen Materials

It is a simple task to build porch frames, fit both the sash, and screens to fill openings. Do the work in leisure time and save half the cost; get wonderful comfort and convenience from your porch by having it glazed in winter and screened in summer.

And here Mr. Handy Man, is a large variety of porch sash—24 sizes and 2 styles to select from. Made of CLEAR WHITE PINE, well tenoned, mortised and pinned. Sash are made with 2-inch face top rail, 2-inch face side stile and 3 1/8-inch face bottom rail. Thickness, 1 1/8 inches. Smoothly sanded and shipped to you in the white (natural wood). We will rabbet Bottom Rail of Porch Sash for 12c per sash extra. When Porch Sill 10-FL-260 is used Bottom Rail must be rabbeted.

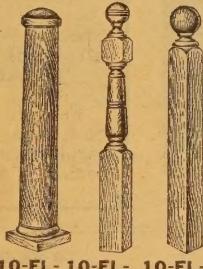

For special size Porch Screens see page No. 3.

STANDARD CHECK RAIL WINDOWS

Clear White Pine—1 3/8 Inch Thick

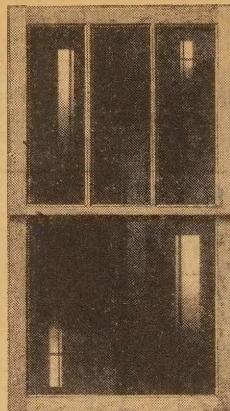

These windows are manufactured in our own shops. They are of clear white pine, kiln dried, tenoned and mortised, pinned and sanded. First Quality glass extra strongly tacked, and puttied with high grade putty.

The term "window" means two sash—upper and lower.

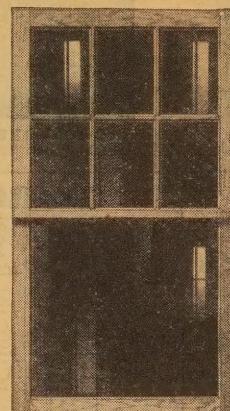

All check rail windows are plowed and bored for sash cord and can be used either with or without weights. The check is the beveled rail where the two sash come together. The check rail prevents windows rattling and makes them stormproof.

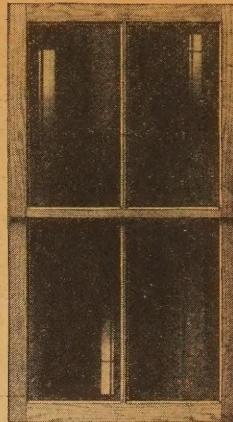

No. 10-FL-71

No. 10-FL-1344

No. 10-FL-1342

No. 10-FL-72

When ordering be sure to give width first. Price includes both top and bottom sash.

Height—a window 28 x 28—2 lights check rail 1 1/8 inches thick is considered an average size and weighs 28 pounds, shipping weight.

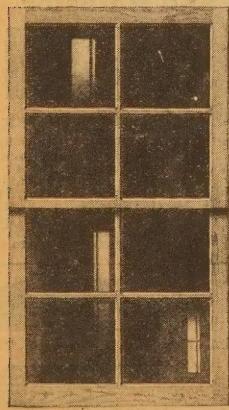

Special Windows and Sash of all kinds made to order at lowest possible prices

For price of Top or Bottom Sash separately take one-half of regular Window price and add 25 cents.

SASH CORD

Made of special selected long fiber cotton, firmly braided. The strongest and most durable manufactured. Put up in bundles of 100 feet. Average window requires about 20 feet.

10-FL-3645.
No. 7 Sash Cord.
7-32 in. diam.
Per bundle... 45c

No. 10-FL-76

EIGHT AND TWELVE LIGHT WINDOWS

Our Check Rail Windows are plowed and bored for sash cord and can be used with or without weights. The Check Rail feature where the two sash come together, prevents rattling and makes the windows stormproof.

HARRIS BROTHERS COMPANY, 35th and Iron Streets, CHICAGO

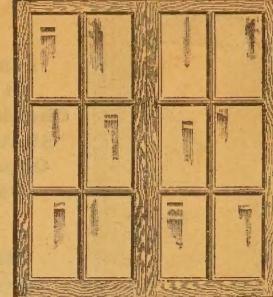

FRENCH WINDOWS AND SASH

Clear White Pine

These handsome, artistic French windows harmonize with any style of architecture. Made of best quality clear grade Soft White Pine and glazed with clear glass and best grade putty. Each sash is rabbeted on the side where they come together, insuring a close fit. Strong wood dividing bars are used and windows are built in a most substantial manner. Windows are 1 1/8 inches thick.

10-FL-306

The above 6 light French windows are rabbeted in center assuring a tight joint.

10-FL-331 Clear White Pine 1 1/8 Inches Thick

For Swing-In Sash

We will rabbet bottom rail of any sash for swing in style frames at 12c extra. Frames for these windows and sash are illustrated and priced elsewhere in this catalog.

Water Drip Moulding

Water Drip Moulding
10-FL-265

Drip Cap Frame

OUR WINDOW FRAMES ARE OF THE HIGHEST GRADE MANUFACTURED. We use Clear Soft Western White Pine for all exposed surfaces that are to be painted. Yellow Pine for pulley stiles and parting stop, which are generally varnished and get the hardest wear. All frames are planed, ready to put together, no further cutting or fitting is necessary. All that is necessary after receiving our frames is to nail them together. Frames are shipped knocked down, securely bundled. We carry a complete stock.

No. 10-FL-458—Drip Cap Frames

For frame buildings. Specifications: Outside casing $1\frac{1}{4}$ x 4 inches, pulley stiles $\frac{3}{4}$ x $5\frac{1}{4}$ inches over all, including blind stop; plowed for parting stop. Solid sill, $1\frac{1}{2}$ x 7 inches, drip cap $1\frac{1}{2}$ x $1\frac{1}{2}$ inches.

No. 10-FL-108—“Box” Style Frames

For solid brick, stone or cement block buildings. Specifications: This frame has $1\frac{1}{2}$ x 2 inch brick mould, $1\frac{1}{2}$ x $4\frac{1}{2}$ inch head, $\frac{3}{4}$ x $1\frac{1}{2}$ inch head inside lining and $\frac{1}{2}$ x $5\frac{1}{4}$ inch main sill, $\frac{3}{4}$ x $4\frac{1}{2}$ inch blind stop, $\frac{3}{4}$ x $4\frac{1}{2}$ inch pulley stile, $\frac{1}{2}$ x $5\frac{1}{4}$ inch parting stop, $\frac{3}{4}$ x $3\frac{1}{2}$ inch rabbed box lining, $\frac{3}{4}$ x $4\frac{1}{2}$ inch back box lining.

MULLION OR DOUBLE FRAMES are double the price of regular single frames of the same window opening size.

TRIPLE FRAMES are three times; quadruple and quintuple frames are four and five times the price of single frames.

FOR PLASTER-BOARD WALLS. We furnish frames $\frac{1}{2}$ inch narrower at same price. Be sure to specify for “Plaster-board Walls.”

Construction

“Swing In” Style

These frames, like all of our frames, are manufactured from Clear lumber and are machined so that each piece fits perfectly. The jambs are $1\frac{1}{2}$ x $5\frac{1}{4}$ inches. Frames No. 4881 and 4882 have $1\frac{1}{2}$ x 4 inches outside casing and $1\frac{1}{2}$ x $7\frac{1}{2}$ inches sill. Frame No. 4901 has $1\frac{1}{2}$ x $5\frac{1}{4}$ inch sill and $1\frac{1}{2}$ x 2 inch brick mould. We will rabbit frames Nos. 4901 and 4902 for extension jambs at the same price if specified. Always give thickness of walls. “Swing In” Frames are made with parting stop in sill and sash should be ordered rabbed for same.

All our frames are made to exact size. Every piece is cut to fit, ready to put together, easily assembled. For frames larger than listed add 5c for each 2 inches additional in width and / or height.

Improved “Jam-Proof” Pulley

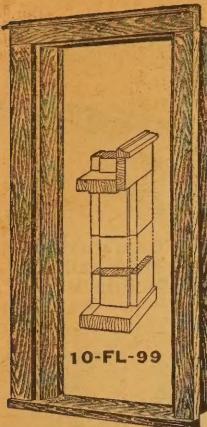

On all our window frames, new improved one-piece face jam-proof pulley is furnished. These new pulleys are easy to thread or cord. Wheel is completely enclosed, making it impossible for cord to jam or jump off. Also eliminates frayed and broken sash cords. Pulleys are mahogany finish with special lacquer, which eliminates rust. Being completely enclosed, pulley will give many more years' service than the old open faced type.

10-FL-3183. Harris Jam-proof Pulleys including screws.

Fir Panels

10-FL-550. Our beautifully figured slash grain Fir Panels are just the thing for making cabinets of all kinds or for paneling living rooms, etc. Can be stained and finished to match expensive woods. Fir Panels are laminated, that is, built up 3-ply with the center layer running crosswise to the face, making them strong and warp-proof. Prices are for panels with best side sanded ready to finish. For two sides sanded ready to finish, add 25 per cent to prices.

INTERIOR DOORS PRICED LOW

Beautiful Designs in Choicest Woods

These doors will survive the most critical inspection. Constructed to give long service. Built of best "A" quality Western Fir, White Pine, Red Oak or Northern Birch, as specified.

Flat Panels are laminated, that is, built up from two outside plies of veneer, selected for beauty of grain, and the center core has the grain of the wood running in the opposite direction: thus one layer strengthens the layer next to it, and the result is a permanent, extra strong panel.

Two Regular Panel

IMPORTANT

All doors come to you in the natural wood; smoothly sanded and ready for paint, enamel, stain or varnish.

LATEST UNIT CABINETS

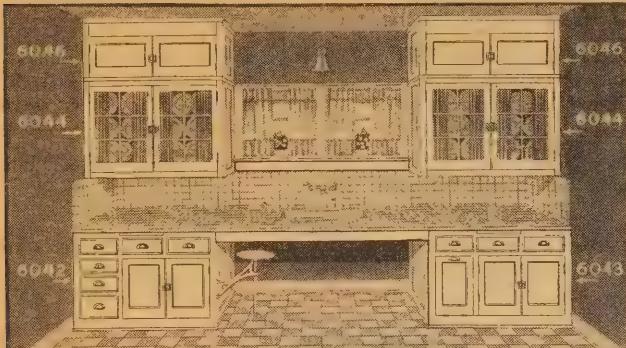

Come in Units
Three & Four
Feet Wide

The fronts of base units are reversible and small cupboard doors, flour bin or lower drawers can be placed on either right or left hand side.

All units are made of finest clear white pine, smoothly sanded and come to you in the "white" (natural wood), ready for finishing. The standard ceiling height of both the 3 and 4 ft. widths is 8 ft. 8 in. but this can be increased or diminished for higher or lower ceilings.

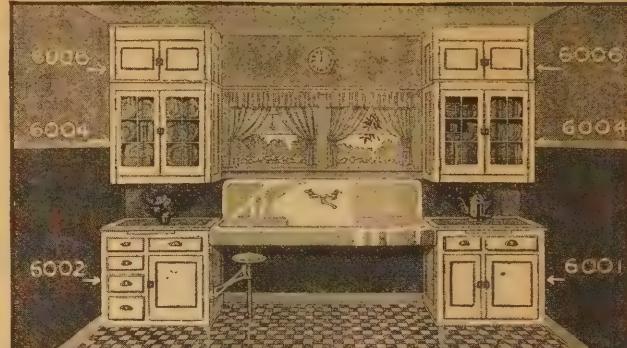

Cabinets are semi-assembled. Fronts and sides are assembled; balance of cabinet is fitted so all that is necessary is to nail together the sides and top, shelves, etc. Wall serves as back.

All Units Made
of Finest
Clear White
Pine

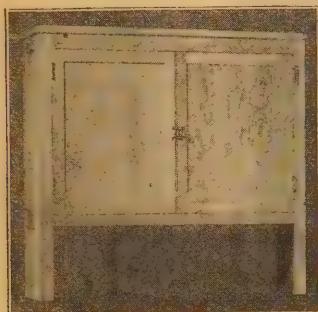

What a source of pride this kitchen will be to the efficient housewife who desires to have a kitchen as attractive as the other rooms of the home. With this practical arrangement, a pantry is unnecessary.

Hardware is included in the price of all Cabinets

This combination gives ample drawer and cupboard space for the numerous kitchen utensils, dishes and silverware. The upper units have been cut off even with bottom shelf and will fit any height ceiling.

Sectional Cedar Safe

Comes in Six Units—Easy to Assemble
Practically Air Tight!

A SECTIONAL CEDAR CLOSET, easily put together by anyone, comes in six units, front, back, two ends, top and bottom; every section fitted perfectly and supplied with complete set of bolts and screws, ready to bolt together, all holes are bored. Here is something that is worth its weight in gold when it comes to saving your clothes from moths. Made of first class material and in a first class workmanlike manner.

The lining is genuine Aromatic moth-preventing Red Cedar closet lining; the entire outside of the Closet is 3-ply $\frac{3}{8}$ in. fir paneling, with reinforced white pine framing. The Closet when assembled, creates practically an air-tight compartment, which is necessary in order to preserve the cedar odor so objectionable to moths.

It can be placed in a room, independent of any other closet, or in the attic, basement, or inside of a clothes closet. No matter where it is placed, it retains its effectiveness, as the Cedar aroma is practically sealed because of the double wall construction, with offset joints and tight-locking hardware.

It is made of clear knotless lumber with the exception of the cedar, which naturally has lots of knots because it is in the knots that the Oil-of-Cedar is the strongest.

Shipped K. D., carefully crated, takes a low rate of freight, safe delivery guaranteed; furnished in two sizes. Shipped in the white.

No. 10-FL-774. Size 2 ft. wide, 2 ft. deep, 6 ft. high overall, price. **\$14.50**

No. 10-FL-775. Size 3 ft. wide, 2 ft. deep, 6 ft. high overall, price. **\$19.75**

Complete with all hardware applied.

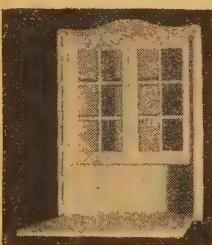

“De-Luxe Unit” Combination Cabinets

Here is something new—fastest selling item of its kind on the market—a combination kitchen cabinet, breakfast alcove, or study table and bookcase. The most practical, up-to-date Combination Cabinet yet designed. Many combinations; two upper units and three lower units. Nothing like it on the market; practical, handsome and durable, and the price is within the reach of all.

A kitchen cabinet generally is good for kitchen cabinet only, you still need a table if you want to have breakfast, or luncheon in the kitchen. Think of being able to let down the table and there, right at hand, are the necessary shelves for dishes, space for bread box, toaster, silver and napkins, everything right at hand, without one unnecessary step. Occupying only the space of the kitchen cabinet; table when the meal is finished, table is folded up, out of the way.

A wonderful cabinet for a boy's or girl's room. For work or play. Plenty of shelves for books. Your choice of bottom units to suit individual taste.

Breakfast Table folded up, out of the way, closing front of top section. It acts as both cabinet

De-Luxe Combination Cabinet consisting of No. 10-FL-889 Top Unit and No. 10-FL-772 Base Unit.

Price complete... **\$19.80**

SPECIFICATIONS:

Overall measurements: Top units are all 36 inches wide, 12 inches deep and 51 inches high.

Overall measurements: Bottom units are 38 $\frac{1}{2}$ inches wide, 29 inches deep and 30 inches high.

Top and bottom units are complete individual units in themselves and are made to fasten together with four wing nut bolts, which are supplied and the holes are bored. The table is piano-box hinged by us to bottom shelf of upper cabinet, it is 31 $\frac{1}{2}$ in. wide by 45 in. long, regulation height, and supported by an auxiliary leg, which is not necessary if cabinet is built in the wall.

All units are perfectly fitted in our shops and shipped semi-assembled for easy installation and low freight rate. Top unit can be bolted on your present kitchen base unit or table.

Splendid 3-Piece Breakfast Nook Set!

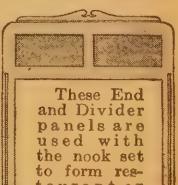

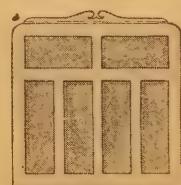

This style of “built-in” breakfast nook is now all the vogue. Every home will find it a welcome addition to their other furnishings. Very neat and takes up so little room yet affords much extra seating capacity. And too, you can finish it to harmonize with your other furnishings.

Wherever there is a little room, nook or alcove 5 ft. 6 in. by 4 ft. 6 in. or larger, the “Concord” will fit in with the utmost nicety. Made of the best grade Clear White Pine, with 3-ply Fir panels in the settees. The stock is heavy and well seasoned and the construction is very substantial. Table top, seat and ends are 1 $\frac{1}{8}$ in. thick. All other parts 1 $\frac{1}{16}$ in. thick. Table is 4 ft. long, 2 ft. 2 in. wide. Note the sturdy graceful construction. The settees are 4 ft. 5 in. wide, 3 ft. high, comfortable and roomy, and will accommodate 4 to 6 persons.

All parts are carefully sanded—ready for finishing—and so perfectly machined that anybody can put the nook together in a few minutes. Shipped K. D. (Not assembled) and carefully crated to avoid damage in delivery. Shipping weight, about 125 pounds.

10-FL-1678. “Coneord” Breakfast Nook. **\$12.75**

End and Divider Booth Panels

These End and Divider panels are used with the nook set to form restaurant or soda fountain booths. Made of same materials and built to match nook. Size 4 ft. 6 $\frac{1}{4}$ in. wide, 4 ft. 9 in. high and 1 $\frac{1}{8}$ in. thick.

10-FL-1679. End Panels, each. **\$5.75**

10-FL-1680. Divider Panels, each. **3.95**

"GOLD MEDAL" WALLBOARD

Here is your opportunity to save money on this fine first quality wallboard at these rock bottom prices. A real board, made from wood fibre. One of the strongest and most rigid boards made. Four ply—standard $\frac{3}{16}$ inch thick. Both sides rosin-sized at the factory, this seals against moisture and makes board ready for paint, calcimine, etc., or board will make a pretty wall as is. Board is cream colored both sides. A good insulator. This man-made lumber is light and easy to handle. In a few hours with a saw and hammer you can—Add that extra room—Line and insulate your garage, attic or basement—Cover those old cracked plaster walls, etc., etc. Can be used for hundreds of purposes. Carefully wrapped and shipped in sealed, dust-proof packages—Safe delivery guaranteed.

Rolls weigh 40 to 65 lbs.

INSULATING BOARD

Protects Your Coal Pile, Insulates Against Heat, Cold and Drafts

Insulate your new home, attic, basement, porch and garage with this splendid board. Used by many large industrial concerns to insulate concrete roofs against condensation. Highly effective as a sound deadener. Made from long, tough vegetable fibres inter-laced and matted into an extra strong board 7-16 inches thick. Vermin proof and free from sugars. Makes a splendid wall in natural tan color. Can be painted or plastered.

Plastic Paint, described in next column, is especially suitable for use on this board. Use special plasterboard nails priced above.

Screening for Joints

14-Mesh Galvanized Screen for covering joints of insulating board to prevent plastic paint and wall coverings from cracking at joints. Comes in rolls 3 $\frac{1}{2}$ inches wide and 200 feet long. On sidewall nail at top and bottom with blued nails or galvanized staples. For ceilings stagger nail staples about 16 inches apart.

22-FL-750. 3 $\frac{1}{2}$ -inch Screening. Price per roll of 200 lineal feet. **\$2.25**

HARRIS "Very Best" ROOFING!

Beautiful Slate Surfaced
Guaranteed for 20 Years

Approved by FIRE UNDERWRITERS
and bears their label

\$1.68

Per Roll

Avg. 87 lbs.

"The proof of the pudding is in the eating"—WE USE THIS ROOFING OURSELVES—no other testimonial is needed. Guaranteed for 20 years' service. More than 30,000 Harris buildings stand erected in Chicago and suburbs, all covered with Harris "VERY-BEST" Roofings. Now we offer it to you at these low prices.

QUALITY MATERIALS THROUGHOUT

Harris "Very-Best" Roofing is the result of over 35 years' experience in roofing manufacture. We believe it is the best piece of roofing produced. Only the highest grade of long fibre rag felt is used as a base for Harris Twenty-Year Roofings. This felt is thoroughly saturated with pure, long-life asphalt, and the best weather-proofing materials; then coated with asphalt, properly tempered, into which the beautiful natural-colored flaked slate is imbedded.

BEST NATURAL COLOR SLATE

Only the best grade of crushed slate is used on Harris Roofings—no screenings. Harris Slate Surfaced Roofings will not fade. "Harris" roofings meet the Fire Underwriters' requirements everywhere, and carry their approval label.

Average weight, 87-lb. to a roll of 108 square feet—all one length. Has special 2-inch smooth lap to take cement and make tight joint. We can also furnish rolls 32 in. wide by 40 ft. long, but without smooth lap edge at same price.

DOES NOT CONTAIN COAL TAR

The high-grade materials used in Harris "Very-Best" Roofing make it an excellent non-conductor of heat or cold. This means a saving of fuel in the winter, and a more comfortable house in the summer. The colors are permanent— are not affected by sun, rain or snow—will not fade. Our roofings contain best quality asphalt and do not contain coal tar.

Order direct from this page. Our guarantee assures your perfect satisfaction. Samples sent free on request.

Be sure to mention color when ordering slate-surfaced roofings

Extra long nails for over shingles. Extra per roll..... 10c

HARRIS Staggered Edge Roofing

Here's a new product, specially designed for re-roofing and re-siding—for jobs where low first cost is a factor. "STAGGERED EDGE" Roofing should be applied over

your old shingles, or siding. It comes in long strips, which are easy and economical to handle; the distinctive design gives the effect of shingle roof at roll-roofing cost.

CARRIES UNDERWRITERS' LABEL

Weight 105 pounds per square; each roll is 48 feet long and will cover 100 square feet. Nails not included; cement not needed. Offered in five color combinations as mentioned below. The staggered edge tabs on all of this kind of roofing are coated with blue-black slate which emphasizes the shingle effect.

"RAWHIDE" Smooth Surfaced Roofing

No. 4088 and 4089 Approved by National Board of Fire Underwriters

"RAWHIDE"—the name tells the story—pliable but tough. For actual service on a roof of any kind, it has no superior. Made as "tough as its name"—for hard wear.

Roofs do not wear out—they bake out. This has been taken into consideration in the special grade of SATURATION used in Rawhide. It is a real TALC finish roofing, built of honest raw materials—only high grade felt of tested weight saturated and waterproofed with the best Asphalt and waterproofing compounds. This saturation is BINDING, PLIABLE and NON-EVAPORATING. Weight consists of pure roofing materials only—no rock surfacing added to make weight.

"RAWHIDE" Smooth Roofing

FIRST QUALITY

ALL "RAWHIDE" ROOFING IS FIRST QUALITY—ONE length to the roll complete with $\frac{1}{2}$ -in. Galvanized Nails, LAP CEMENT and directions for laying.

7-FL-4066 "Rawhide," light weight, 35 lbs. to a roll, 8 year guarantee. Price per roll of 108 sq. ft. \$0.85

7-FL-402 "AJAX" roofing, medium weight. Per roll..... .95

7-FL-403 "AJAX" roofing, heavy weight. Per roll..... 1.15

Furnished without nails or cement at 15c less per roll

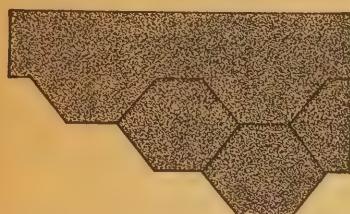

NEWEST SLATE SURFACED SHINGLES

Approved by Fire Underwriters and bears their Label

All "HARRIS" First Quality Slate Surfaced Shingles and Roofings listed below bear FIRE UNDERWRITERS' LABEL and are sold under our own 20 years' guarantee. They are built on a foundation of the best felt obtainable for that purpose. Felt is saturated with pure asphalt and the best weather proofing materials known to roofing manufacturers. The top coating of crushed slate, in beautiful natural colors, stiffens the shingles, prevents asphalt drying out and makes them fire resistant. Offered in many attractive colors.

20 YEAR
Harris Quality
GUARANTEE

HEXAGON SHINGLES

Twin tabs form a hexagon, giving the appearance of individual hexagon shingles, especially recommended for laying over old roofs.

Self spacing, the easiest shingle to lay. New work requires 1½ lbs. of 7/8-inch nails; relaying work 2 lbs. of 1½-in. nails to each square.

22-FL-501 Hexagon 11½ inch, your choice of four colors Red, Green, Blue-Black, Tile Red. Weight 160 lbs.

Per square to cover 100 sq. ft. **\$3.90**

22-FL-516 Hexagon 12½ inch. Gives three inch headlap. Same colors as above. Weight 180 lbs. Per square. **\$4.50**

22-FL-513 Extra Heavy Hexagon 13½ inch, same colors as above. Weight 225 lbs.

Per square. **\$5.50**

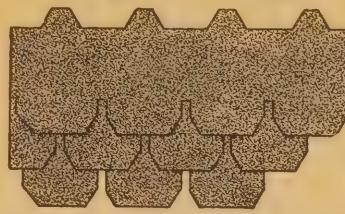

22-FL-504 Hexagon 11½ inch. Your choice of three blends, Green-Blend, Red-Blend, Autumn-Blend. Weight 160 lbs. Per square. **\$4.25**

22-FL-526 Hexagon 12½ inch Shingles. Same blends as above. Weight 180 lbs. Per square. **\$4.90**

22-FL-523 Extra Heavy Hexagon 13½ inch Shingles. Same blends as above. Weight 225 lbs.

Per square. **\$5.90**

Octagon Shingles

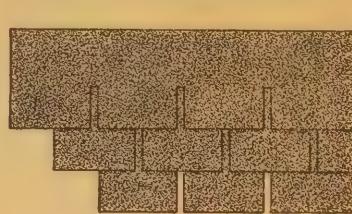

This wonderful shingle provides two layers over the entire roof and three thicknesses at the butt where needed. Each slab has 4 shaped shingles (same as 4-in-1) with the corners slightly cut off giving the roof the appearance of individual, octagonal butt shingles. The cut off corners prevent curling and wind flapping. Size 11-in. x 33½-in. long. Self spacing. Weight 185 lbs. per square. New work requires 2½ lbs. of 7/8-in. nails; relaying work requires 3 lbs. of 1½-in. nails per square.

22-FL-601 "Harris" Octagon Slate Surface Shingles (your choice of Red, Green or Blue-Black). Per square to cover 100 sq. ft. **\$4.65**

22-FL-604 "Harris" Octagon Slate Surface Shingles "Autumn Blend" (all colors drifted together). Per square. **\$5.05**

Note: FIRST QUALITY material only offered on this page. If interested in "SECOND QUALITY" shingles write for Special Bargain Roofing List FL-1.

4-in-1 SHINGLES

Illustrated above. Roof appears as though covered with square butt individual shingles. Easy to lay; self spacing. Size 10-in. and 12½-in. x 36-in. long. Weight 200 lbs. and 250 lbs. per square. New work requires 2½ lbs. of 7/8-in. nails; relaying work requires 3 lbs. of 1½-in. nails for each square.

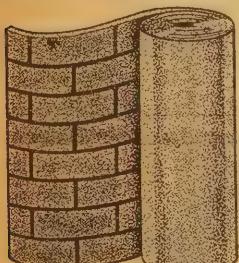

22-FL-309 "Harris" 4-in-1 Slate Surface Shingles 10-in. (your choice of Red, Green or Blue-Black). Per square to cover 100 sq. ft. **\$4.75**

22-FL-304 "Harris" 4-in-1 Slate Surface Shingles 10-in. "Autumn Blend" (all colors drifted together). Per square. **\$4.95**

22-FL-1061 "Harris" 4-in-1 Slate Surface Shingles 12½-in. (your choice of Tile-Red, Green or Blue-Black). Per square. **\$5.75**

22-FL-1064 "Harris" 4-in-1 Slate Surface Shingles 12½-in. "Autumn Blend." Per square. **\$6.15**

Slate Surfaced BRICK SIDING

This siding is made like roll roofing and carries Fire Underwriters' label. Used extensively on porches, garages, sheds, etc., giving a distinctive brick-wall appearance. Is very attractive and has great insulating value. Furnished complete with nails. Comes in a bright red color only and stamped with black mortar markings. Weight 90 lbs.

22-FL-5003 "HARRIS SLATE STAMPED BRICK SIDING," bright red color with black markings, price per roll covers 100 sq. ft. **\$2.88**

ART STRIP SHINGLES

Two Sizes, 10"x36" 4-Tab Shingles and 12½"x36" 3-Tab Shingles.

covering side walls, while the large size 12½"x36", is nearly always used on roofs, but, of course, there is no objection to using it on side walls also.

4-Tab Design

22-FL-5004 "HARRIS ART STRIP SLATE SURFACE D

SHINGLES," 10"x36", 4-Tab. Colors, tile red, blue-black, grey-green, red, purple, russet-brown, blue-black and tile red, price per square, to cover 100 square feet. **\$4.25**

22-FL-5005 "HARRIS ART STRIP" SLATE SURFACED SHINGLES, 10"x36", 4-Tab. Color AUTUMN BLEND, price per square to cover 100 square feet. **\$4.65**
Weigh 160 lbs.

Slate Surfaced TWO POPULAR PATTERNS

Distinctiveness of design—beauty of lines and coloring—and ease of application make these "Art Strip" Shingles appeal so favorably to builders and home owners everywhere, who want something different, or who seek individuality in roof beauty. The curving, graceful lines, not only show up in a most pleasing manner, but they offer the least wind resistance.

The smaller 10"x36"-4-Tab Shingle is especially adapted for roofs, but, of course, there is no objection to using it on side walls also.

3-Tab Design

22-FL-5006 "HARRIS ART STRIP" SLATE SURFACE D

SHINGLES, 12½"x36", 3-Tab. Colors tile red, blue-black, grey-green, red, purple, russet-brown, blue-black and tile red, price per square to cover 100 square feet. **\$4.55**

22-FL-5007 "HARRIS ART STRIP" SLATE SURFACED SHINGLES, 12½"x36", 3-Tab, color AUTUMN BLEND, price per square to cover 100 square feet. **\$4.95**
Weigh 175 lbs.

Slate Surfaced BRICK SIDING

Used on side walls over bevel siding, drop siding, or ordinary boards. Makes your frame house, or garage look like a new face brick building.

Weighs 75 pounds per bundle. Requires about 1½ pounds of 1" large head roofing nails and 1/4 pound small head nails per bundle; for prices see below. Size of strips 6"x36", 2½" exposure.

Size of brick impressions 2"x8¾".

22-FL-5001 BRICK SIDING STRIPS. Your choice of five colors, Light Buff, Dark Buff, Light Red, Dark Red or Burnt (Mixtone) Blend, price per bundle, covers 33 1/8 sq. ft. of surface. **\$1.90**

22-FL-5003 REINFORCED, OUTSIDE CORNERS. Same colors as above. Per carton 100 pieces (enough for 21 lineal feet). **\$4.75**

Ridge Flashing Strips

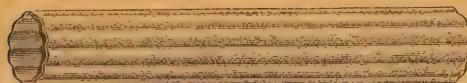

Slate Surfaced Flashing strips to be used on ridges, valleys and as starting strips. Your choice of Red, Green, Blue-Black or Autumn Blend.

22-FL-900 Ridge Strips 9-in. wide and 36-ft. long, state color. **35c**

22-FL-901 Flashing Strips 12-in. wide and 36-ft. long, state color. **55c**

22-FL-902 Valley Strip 18-in. wide and 36-ft. long, state color. **70c**

SLIP JOINT EAVES TROUGH

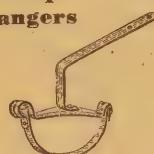

This Conductor Pipe is made of strictly first quality heavily galvanized sheets. It is made in 10-foot lengths without cross seams. Double lock seamed, will not burst when full of ice. One end tapered for easy connecting.

Easiest to Hang

No previous experience needed. Our improved slip joints eliminate all soldering on the job. They permit steel to expand and contract without breaking the joints, and joints are water-tight at all times. A hammer and tinner's snips are the only tools needed. Pipe, elbows, trough, etc., are all carefully matched, and slip together as easily as two sections of stove pipe. They stay together.

Remember—We sell only 28 and 26 U. S. Government Standard Gauges. We do not sell or recommend 29 Gauge—28 is the lightest that should be used.

Cut shows right hand. Note improved slip joint on right hand end.

Most convenient Eaves Trough. Made of heavily galvanized steel sheets. Each length has an improved slip joint at one end, can quickly and easily be put together without soldering. Water-tight joints.

Be sure and state whether right or left trough is wanted when you face house. Slip connection is part of trough, will not leak.

Sold in 10-foot lengths only. We do not supply cut lengths.

Tan and Green or Orange and Black

Handsome designed—Carefully sewn and in two color combinations. The wide stripes (about $8\frac{1}{2}$ " wide) are TAN and GREEN—or ORANGE and BLACK with narrow white pinstripes about $\frac{1}{16}$ " wide running between. Heavier weight duck is used on all awnings over 4 ft. wide. Furnished complete with all fixtures and instructions for hanging. Strong steel frames.

Awnings up to 4 ft. wide are supplied with strong flat steel frames. Awnings over 4 ft. wide are furnished with $\frac{1}{2}$ -in. galvanized tubular steel frames.

Colorful Awnings

Painted Striped 6 ounce Duck

Window Awnings. Project out 2 ft. 6 in.; and extend downward from top of window 3 ft. 3 in. to lower edge of scalloped curtain. Be Sure to State Color Combination Wanted.

No. 4-FL-1506.
 2 ft. 6 in. wide,
 each. \$1.15
 3 ft. wide, each 1.25
 3 ft. 6 in. wide,
 each. 1.35
 4 ft. wide, each 1.45

How to Measure Window Awnings

Measure from center to center of outside window casing and order nearest width. On brick buildings measure between brick opening and use next width smaller. By spreading the frame at the points where they fasten to the window casing, awnings will fit windows either 3 inches wider or narrower than widths shown.

For price of special size Awnings not shown take price of next larger size.

Large Awnings

Heavy Weight Painted Striped 8 ounce Duck Window or Porch Awnings. Same colors as window awnings. All sizes project out 3 ft. and extend downward 4 ft. from top of window to lower edge of scalloped curtain.

No. 4-FL-1510.

CHAIN LINK FENCING

Fabric-Gates and Framework Priced Low!

The Fence for Years of Service

A fence should improve the appearance of your property as well as give you protection for many years to come. To accomplish this, Harris Chain Link Fence is made of Copper Bearing Steel wire, galvanized with pure zinc, a combination that will resist rust and corrosion 25 to 30% longer than ordinary steel fencing. Posts, top rail and all fittings are heavily galvanized. When once erected all Harris Chain Link fences stand solid and rigid, retaining their original neat appearance through years of service.

Chain Link Fence Fabric

SEPTIC

SEWAGE DISPOSAL TANKS

Protect Your Water Supply \$1125

Used Wherever Running Water Is Available

Safe—Inexpensive Sanitary—Odorless

The HARRIS SEPTIC TANK is adapted to all uses, city or rural where running water is available. Ideal for homes, hotels, summer resorts, etc. By the natural process of bacterial action it provides a safe, yet effectual and inexpensive method of sewage disposal, as well as a positive protection of your water supply. HARRIS SEPTIC TANKS are easy to install, no skilled labor being required. Full instructions for installation.

HARRIS SEPTIC TANKS are made from the purest Copper-bearing iron obtainable. 14-gauge with 4" tile connection. All seams are carefully welded by experts, and every tank is given a thorough inspection before leaving the factory.

All surfaces are covered with several coats of tested Mineral Oil Preservative, applied under intense heat, protecting the tanks indefinitely against any corrosive action.

Galvanized Water Heating "Peerless" Range Boilers

The heat generated in the burner strikes the water spreader or disc and passes directly into the water, causing it to circulate. The disc or spreader is used for the purpose of spreading water; it also prevents the flame from coming in contact with the bottom of the boiler, thus protecting it against the gas flame. In The Peerless we have nothing to conceal.

The cold water is carried to the bottom of the disc through the left hand pipe and comes instantly in contact with the hottest part of the boiler, just above the flame. It is quickly heated, and as it is warmed, rises through the center tube to top of boiler.

The heat, after passing around the disc, continues all the way up through the center of boiler.

Liquid Wood Filler

4-FL-1049

For filling or first coating any kind of close grained wood. Thoroughly seals up wood pores, and prevents absorption of moisture. This wood filler is transparent, does not need to be rubbed. Recommended for wood work where one or two coats of varnish are to be applied.

1 qt. cans, each	\$0.50
1/2 gal. cans	1.00
1 gal. cans, per gal.	1.75

Creosote Shingle Stain

\$1 15 Per Gallon

The best wood preservative known. The colors are extremely durable and attractive, and are guaranteed not to fade. This shingle stain is a particularly high grade material. Can be applied with a brush after shingles are laid, or shingles can be dipped before laying. When applied with a brush one gallon will cover about 150 square feet of surface one coat. For dipping it requires 2 1/2 to 3 gallons per thousand shingles. Supplied in six colors, brown, medium green, moss green, weathered oak, venetian red and light green. Weight, gallon, about 10 lbs.

No. 4-FL-901. 1 gallon cans, per gallon. \$1.35
No. 4-FL-902. 5 gallon cans, per gallon. 1.30
